TAKE YOUR LEAD

Shaping Minds Since 2012

TAKE YOUR LEAD PROGRAM

Take your Lead Learner & Student Program seeks to empower the Learner/Student hereafter referred to as the Leader, to take charge of their personal growth, development as well emotional well-being.

The program upholds a culture of excellence, discipline and a very high standard.

With that being said the program is exclusive – that means that you can be dismissed /drop off if you do not comply with the standard, the leader has to earn their place to be part of the program.

Accountability in learning is key – instead of just learning skills / theory, the learnings will be turned into practical understanding, so as demonstrating how the knowledge will be applicable immediately by Leaders and being able to teach what they have learned immediately after any session.

Responsibility – going the extra mile is part of the culture – entrepreneurship, creativity, leadership etc. will be cultivated and expected! The program will be practical as well as fun and interactive.

We are well aware that growth is not automatic, it needs intentional effort, consistency and discipline. That's why our program will blend motivation, inspiration with application so as to gear up the leader for success.

Expand your self awareness and pave the way for the future!

We are proud to contribute the following to your development::

Life-skills & Personal Development manuals
Mentorship-training
Leadership development & training
Mental Coaching
Practical advice & thinking

Purpose Discovery
Emotional Intelligence
Relational Intelligence
Financial Intelligence
Personal Leadership
Character Development
Attitude & Respect
Healthy Habits & Lifestyle Choices
Inspiration & Motivation
Study Techniques- establishing a culture of excellence & discipline in studying.

The Leader and his studies

Focus here will be given to equipping the leader/student with practical skills to better position them to succeed not only in their leadership but in their studies as well. It is often said that one ought to lead by example, thus if leaders are seen in the forefront of being diligent in their studies and excelling this will encourage a culture of diligence and excellence in academics as well as in their sphere of influence.

The Leader and his relationships

Focus here will be given to helping the leader understanding the different types of relationships that exist and their importance. It is said that you are the sum total of the five people you spend most of your time with. Which speaks to the importance of being very intentional and informed about relationships. Here will will also breakdown the Relationships 101, which will help the leader not only form good relationships, but also be better positioned to contribute to the relationships in his sphere of influence.

➡ ***The Leader and his finances***

This is a very important aspect of leadership, because the leader needs to be empowered and equipped on how to be financially savvy, and make wise decisions when it comes to their finances, this will help them establish good habits that they will grow with as they become responsible leaders.

➡ ***The Leader and his legacy***

Here focus will be given to transformational leadership, where we will teach the leader the importance of significance vs success. We will challenge the leader to be intentional about the legacy they want to leave as well the difference they want to make after they've leave the this beautiful planet earth. This will challenge the leader to work like there's no tomorrow but also strategise think and effect change as if they' are going to be part of the world forever.
